ITEM #:

Model: HDX-1 HDX-2 HDX-3 HDX-4

## Designed Smart

### Consistent Holding Temperatures Throughout the Drawer!

- New digital solid-state control systems provide a more consistent flow of energy (Tighter cycle swings), resulting in rapid start up and recovery times
- Temperature in each drawer is capable of reaching up to 200 degrees
- Perimeter heating element distributes hot air throughout the drawer cavity, avoiding "hot spots" in the pan that can cause excessive drying of food
- All drawers are insulated on top and sides to focus heat towards food in each drawer.

### New Ease\*Extreme™ Designer Choices!

- New line of Decorative Powder Coated Drawer Fronts to highlight your kitchen
- Red, black and stainless steel are available with short lead times
- Available in one, two, three and four drawer versions
- Four Drawer version is shipped with 6" legs and is designed to be used only on the floor.

### Easy to Use, Easy to Clean!

- New Flip Down Drawer Fronts are designed to allow maximum accessibility
- Flip Down Front allows operator to get to Pan for unloading of product or cleaning
- Top Control Panel with LED read-outs make it simple for employees to set correct temperatures and to monitor holding conditions
- Handles crispy or moist foods equally well by adjusting the Moisture Control system on the front of each drawer.

## Built Solid

### The most Reliable unit on the market!

- Drawer Slides are constructed with 14-gauge Stainless Steel and designed to provide the most reliable operations in the industry
- New "Jam-Free" side roller design at the back of the slide easily rides over typical "binding areas"
- Exterior and interior construction is made of 20-gauge Stainless Steel, with all roller systems reinforced with 16-gauge stainless steel plates for maximum durability.

### Reliability backed by APW Wyott's Warranty

- All APW Wyott Holding Drawers are backed by a one-year parts and labor warranty
- Certified by the following agencies:

EASE\*EXTREME HDX-2

## APW Wyott Design Features

- Fold Down Drawer design that allows operator to quickly access interior pan
- Heavy-duty Stainless Steel Drawer Slides and Roller System
- Drawer Slide design includes new "Jam-free" side roller system that smoothly glides over traditional binding areas
